

Multi-Loc[®] Multipurpose Absorbent Pad

- Slide Resistant
- Fast Wicking
- Case Ready

There's a solution to the problem of products shifting within trays. Trays that are displayed on edge in the shingled position or products that are disturbed by the shopper are especially vulnerable to product shifting within trays.

Now a proven solution is here.

Multi-Loc[®] absorbent pads deliver all the benefits of absorption with a meat contact surface layer that is resistant to meat sliding. This patented product is available in a variety of colors, sizes and absorbencies.

Features and Benefits

- Greatly enhances the retail marketability of trayed meat, poultry, and fish
- Utilizes a special top layer that is resistant to product slippage
- Unique bottom material provides for more rapid, full-perimeter absorption
- Delivers the same exceptional seal strength found on all Sealed Air absorbent products
- Uses no reclaimed fiber based products - Sealed Air uses only 100% virgin fibers for maximum performance
- May be combined with superabsorbent polymers where improved moisture retention is needed
- Fully compliant with US FDA food law

Multi-Loc® - The Multipurpose Absorbent Pad

Product Offering - Rollstock

<u>Product:</u>	<u>Size:</u>	<u>White</u>	<u>Black</u>
